

Need a Snake Removed in Thailand? Call These Numbers.

There are a number of contacts you can call in Thailand if you need to have a snake removed from your home, yard, vehicle, whatever it is. The first call would probably go to the snake park guys in your area. They are happy to come and get whatever type of snake you have. Reasons are many, but primarily because the king cobras, monocled cobras, and kraits they keep for the shows eat a snake once a week. They are snake eaters and eat a lot.
